

# Erasmus+ Erasmus Mundus Joint Masters (EMJM)

## General approach and set-up

EMJM Kick-Off

December 2022

*EACEA A.3*

# 1 - Erasmus Mundus New Ambition

## 3 main priorities compared to the past

- More **strategic** and more **attractive** for institutions and students
- More **open** and more **inclusive** for institutions and students
- More **sustainable** projects beyond EU funding

## 2 - Commission's strategy

- Stronger focus on the **institutional** aspects (from KA1 to KA2)
- A **new** component (lot): EMDM
- A funding scheme...
  - targeted on studies rather than mobility
  - more generous (increased funding for institutions and individual)
  - more **simple** and **flexible** (less and clearer rules and prescriptions, principles rather than rules, simple financial model based on unit costs,)

### 3 - Consequences in operational terms

- Positive feed-back received about the new approach / concepts
- A new challenge for both EACEA and the partner institutions

 Turn the principles/priorities into new practice

# ➤ Consequences for EACEA

## Change in EACEA way of monitoring projects

- Less rules to check and less reporting requirements: *“more support than control”*
- More focus on the institutional aspects (e.g. cooperation arrangements, degrees, enrolled students)
- Priority on exchange of experience and practice (a new initiative in preparation for implementation as of 2023)

## ➤ Consequences for the institutions

More autonomy and responsibilities from an operational point of view

- Need for internal clarification and formalisation of *modus operandi*
- Need for transparent and comprehensive information to external stakeholders

 Main tools: *Consortium agreement, Student agreement, Website*

**More to learn with the next presentations....**

# Thank you
